

DIE-CUTS / GASKETING

Gasketing available in a range of shapes, sizes and materials - made to customer specification.

APPLICATIONS

- Foam and rubber gaskets for all sealing applications, for example: ventilation, dust and moisture sealing, vibration dampening and waterproofing.
- Filters, washers and shaped components for the automotive, electronics and industrial industries.

ADVANTAGES

- Ease of fabrication - cut to almost any shape or size - saving you time, labour costs and minimising waste.
- Impregnated foams are available for gaskets for irregular gaps.
- Sondor has over 50 years experience and has branches located nation-wide for your convenience.
- All products are supplied according to customer specification.
- Flame retardant and anti-static grades are available.

PHYSICAL PROPERTIES / TECHNICAL DATA

- **Composition:** A wide variety of materials are available enabling the selection of exactly the right compression strength and cushioning properties required for specific applications.
- **Densities:** Various densities and thicknesses are available.
- **Size:** Supplied cut to size.
- **Self-Adhesive Backing:** Self-adhesive backing is available if required.

Sondor supplies a wide range of die-cuts / gasketing for various applications. Please contact your nearest Sondor branch to discuss the most suitable material for your application.
