

# PERFORMANCE BUBBLE POOL COVER

A two layer film Polyethylene bubble material manufactured from virgin low density Polyethylene (LDPE).

## FEATURES

- Prevents evaporation by 95% and minimises replacement water
- Reduces pool chemical consumption
- Reduces pool cleaning time by keeping dirt and other debris out of the pool
- Superior tensile strength, elongation and weathering capabilities.
- Resistant to chemicals, oils and fuels.
- Pool water temperature is higher by approx. 6-8°C which can extend the swimming season

## ADVANTAGES

- LDPE raw material used in manufacture is chemically unreactive and non-irritant, regarded as biologically inert and fully recyclable.
- Good Shock absorption characteristics.
- Good insulating properties.
- Closed cell structure ensures dust, water and wind resistance.
- Non-toxic.
- Chemical and UV resistant.

## SPECIFICATIONS

- Size: 1.250m (w) x 80m (l) per roll
- Will need to be manually stapled or bound together by customer
