RISING STARS

SCHOOL & SPORTS RANGE

PERFORMANCE FOAM FOR SPORTS & SCHOOLS

Sondor supports your young rising stars! Quality school products must be able to withstand the demands of the school environment and the needs of the learners. It must also meet the highest standards of quality and safety. Our foam school range is made from the highest quality polyethylene and ethylene vinyl acetate materials that are durable and long-lasting. They are also safe, easy and comfortable to use. What's more, make your school stand out from the crowd with customised branding. So if you want your school to be cushioned, comfortable and stylish, show your school pride with our new school range!

BRANDED FLIP FLOPS

Branded foam flip flops are a great way to show your support for your school or team. They're comfortable, durable and stylish, and most importantly, they help promote your organisation. Foam slops are perfect for students or athletes to wear to school or the beach. Plus, with your logo on them, they'll help increase awareness of your school or team. So if you're looking for a fun and practical way to promote your brand, look no further than branded foam flip flops!

POLYPYTHON POOL NOODLES

Pool noodles are a versatile and essential piece of equipment for any pool. When used correctly, pool noodles can help children feel more comfortable and confident in the water. They can be used to support the head and body, and they can also be used to help maintain balance. In addition, pool noodles can be helpful for learning certain swimming strokes. By providing support and stability, pool noodles can make it easier for children to learn how to swim with proper technique. As a result, pool noodles can be a valuable tool for both teachers and students during swimming lessons.

KICKBOARDS

Kickboards are one of the most essential pieces of equipment for school swimming lessons. They provide a buoyancy aid for beginners who are still getting accustomed to floating in water. They also help more experienced swimmers practice their kick technique. In addition, kickboards can be used for a variety of other drills and exercises, such as swimming laps with one arm. As a result, kickboards are an incredibly versatile piece of equipment that can be used to benefit swimmers of all levels.

EXERCISE MATS

Foam exercise or yoga mats are an excellent option for school sports and exercise programs. They are lightweight, easy to transport and provide a comfortable surface for students to practice on. Foam mats also offer good traction and support, making them ideal for classes that involve a lot of movement. Plus, they are easy to clean and store, which is important for busy schools. Overall, foam mats are a versatile and affordable option for school sports and exercise programs.

INTERLOCKING FOAM FLOOR TILES

Interlocking foam floor tiles are a popular choice for school sports because they provide a comfortable, safe surface for students to play on. The foam cushions impact and absorbs shock, making it easier on students' joints and muscles, and helps in preventing injuries. In addition, the tiles can be easily cleaned and disinfected, which is important for maintaining a healthy environment.

Most notably, the tiles are designed to interlock, so they can be quickly and easily installed without the need for adhesives or fasteners. This makes them perfect for temporary or permanent installations. As a result, foam floor tiles are an ideal choice for any school that wants to provide its students with a safe and comfortable playing surface. Best of all, foam floor tiles are available in a variety of colours, so you can create a unique look for your school's gymnasium or playground.

POLE PROTECTORS

Play areas are a great way for kids to expend some energy and have fun. However, they can also be dangerous if the correct safety precautions are not in place. One way to help keep play areas safe is to use foam pole protectors. These simple devices fit over the exposed ends of poles and help to cushion any impact. They can also be used to cover sharp edges or exposed metal, providing an additional layer of protection. As a result, they can significantly reduce the risk of injuries, making them an essential part of any play area. Our pole protectors are available in a variety of sizes and colours, so it's easy to find ones that match your existing equipment. Best of all, they're inexpensive, are easy to install and require very little maintenance. So there's no excuse not to make safety a priority.

SONDOR PRODUCTS ARE:

- ★ Made from high quality Cross-linked, Closed Cell Expanded Polyethylene
- ★ CFC and HCFC Free
- ★ Resistant to dilute alkalis and acids and some oils
- ★ Water resistant, which makes it an excellent buoyancy solution
- ★ Weather Resistant
- ★ Long Lasting and Durable
- ★ Available in a wide range of densities and colours
- ★ Non-Toxic
- ★ UV Resistant
